

Business Opportunity - Aphrodite Dairy Raw Milk Factory

Aphrodite Dairy has attracted much media attention over the past year in opening up the raw milk debate. It is expected that raw milk legislation will change. However, **Aphrodite** is firmly established in the raw milk business.

There is a great opportunity for an enthusiastic entrepreneurial person to continue to grow **Aphrodite** Dairy.

Aphrodite milk is sold at a premium price which reflects the demand.

Aphrodite has established distributorship within Melbourne and because of the demand from Sydney it is likely that a distributor will be appointed in the next few months.

The organic certified milk factory is now available for lease which is equipped to process various dairy products.

The factory is licensed with Dairy Food Safe Victoria and has been organically certified for the past 10 years.

There is an opportunity for retail shop/ farm gate/ tourism attached to the factory.

Milk supply arrangements can be made with the owners to supply an agreed amount of milk on a year round basis. The farm has produced premium milk since 1949.

The factory is geographically located 3.5 hours from Melbourne and 8 hours to Sydney. A farm house is situated on the property that may be available.

Terms of the lease would be 3 x 3 x 3 year options and open for negotiation.
